

FRIDAY, JULY 15, 1887.

FOR PRESIDENT IN 1888,

JAMES G. BLAINE,
OF MAINE.

Subject to the decision of the Republican National Convention.

"We always have the American flag above us and not below us."—James G. Blaine.

MARTIN TREGALLIS.

It was not many years ago that Martin Tregallis saw the light of day in one of England's most lovely parishes. His early life was as pleasant and pure as the love that looked out of his mother's eyes as she fondly nestled him to her breast. The spirit within him was strong and hopeful, and renouncing in thought and deed, allegiance to the old country, he became an American citizen. He was a carpenter by trade, but a miner as well, and there never was a time that he was afraid of work. He grew to manhood in these western wilds and symbolical of the country itself he was a pillar in all the virtues that makes a man a man. Of poor and lowly parents, he proved himself a prince. Generous to a fault, he was as gentle as he was brave. No petty mercenary motive ever influenced his actions. He would have divided his crust with a distressed fellow creature, and given away by far the greater half. His heart was overflowing with kindness and goodness, and to his friends he was a marvel of constancy. He never forgot a favor, and was unhappy if not afforded an immediate opportunity of reciprocating it. His soul revolted at anythingavoring of dishonesty or dishonesty and in every position, public or private, he was as true as steel, as good as gold. He served a term as Captain of the Guard at the State Prison and no man ever filled that responsible position with more kindness to the prisoners, faithfulness to superior officers, and unswerving fidelity to the State. It was an unfortunate impulse that impelled him to go underground again, and as he stepped upon the Gould & Curry cage on that fateful 24th of June he little thought that the sunlight had forever passed from his vision, and that he was going down, down, down into the gloom and darkness, to be cruelly, relentlessly cut off in the prime and vigor of his young life. He worked away with his gallant comrades until the horrible fire had sent the foul gases up the shaft and back again through the air-pipes into the very face of the drift. He felt that life was worth living, that there was yet a chance before three score and ten, to help himself and others, and therefore rushed to the shaft. The fire above obscured the panorama last seen from the surface—the flames in the incline lit up the certain hell down there. The bell was rung, but the cage was stuck in the burning timbers above! Appalled and horrified, every stone seemed a demon, and yet with the bravery of a lion, with the boldness of all that was in him, he, and his partners, thought of the old drift which connected with a winze leading to the 1700 of the Con. Virginia and attacked the bulkhead, knocked it down, and entering the drift, continued for six hours to labor, and to fight for life, so precious. The cold, merciless earth showed no flowers or trees, or other beautiful things. It presented its most ugly form and features to Martin and his men. Each barren rock hugged its neighbor closer than ever. Martin looked around, looked up, put his hands over his face, bowed his head, and laid down in the bottom of the drift, his heart broken. His eyes had no sooner closed in sleep than the white-winged messengers came from the other shore, made a passage-way, and carried his spirit out to the lovely sward, and where the tears from his mother's eyes assure it perpetual green. The few years he has lost on this earth amount to nothing in comparison to the joys he has been provided in the Heaven above, for there he no man, high or low, rich or poor, who ought to be more tenderly cared for in that other and better world. Noble fellow, be happy forever and ever.

The Pacific Railway Investigating Committee, now in session at Denver, has run into the question of the interference of the railroad in politics, and how much money they contributed to elect Senators in Colorado. The Committee can find much to interest them when they come to Nevada in ascertaining how much it cost the Central Pacific to elect Stewart.

Sacramento is trying to work up a boom. California's Capitol city is one of the nicest places in the State, and is bound to grow up with the country.

Nevada is gradually improving. Good reports come from every part of the State.

WEST VIRGINIA'S SENATOR.

He Thinks Precedents Assure Him Against Lucas' Contest.

WASHINGTON, July 12.—Senator Everett Charles Faulkner, of West Virginia, was at the Interior Department to-day making recommendations in regard to appointments from that State. Regarding the status of his election affairs, he said: "I do not understand that Lucas is to make any sort of contest. If it is true, as he charges, that our State Constitution forbids any other business being done than that outlined by the Governor for the extra session of the Legislature, it is also true that our State Constitution forbids the electing to political office of any Supreme or Circuit Judge during his term of office. The Senate, however, has decided that the State Constitution cannot add to or take from the qualifications of a United States Senator, and further, it has decided, in twelve different cases, that the Governor of a State has no right to make an appointment in the beginning of a Senatorial term. Mr. Hearst, of California, recognized these things, and made no contest against the seating of Mr. Williams, although the latter was elected under the same circumstances as myself, and against the provisions of the State Constitution of California. I do not apprehend that the Republicans will try to keep us both out. That would be pretty small partisan politics, and the Senate is too evenly divided to do it. Yes, I am making some recommendations for office and securing some appointments. I made sure of my recognition by the Administration as the next Senator from West Virginia before I set foot in the department or made a recommendation."

HIGH-PRICED LAND.

Philadelphia Property that Sold at the Rate of \$5,800,000 Per Acre.

PHILADELPHIA, July 12.—A piece of ground at the northwest corner of Chestnut and Fourth streets, sixteen feet on Chestnut street by thirty-four on Fourth street, has been sold for \$55,000, or \$156 per square foot. It has a building on it but the building does not count, as it will be removed to make the ground available for a particular purpose. At the same time hundreds of acres are for sale in Philadelphia in small lots, which sell as low as 50 cents per square foot, and may be bought in installments. This one lot, however, was needed to complete a building site in the business heart of the city, and sold at the rate of \$5,800,000 per acre.

An Indiana Republican's Political Views.

INDIANAPOLIS, July 13.—John C. New has freely expressed himself regarding politics in general and Indiana politics in particular. Mr. New is a member of the Republican National Committee, and has been for twelve years. When asked: "Will Blaine go into the convention with a decisive following of delegates?" he said: "No, indeed; he will not. He will not get enough votes from the Republican States to cut any important figure. He will not even be the Warwick of the party, as I see George M. Pullman says he will, in an interview sent from London. His letter withdrawing his libel suit against the Indianapolis Sentinel damaged him in this State. If he was nominated Indiana would go 25,000 strong against him. He would be completely swamped. I believe our State will be practically solid for Harrison. He would be a tower of strength in this State and elsewhere."

Mr. New was of the opinion that President Cleveland would be renominated by the Democrats.

An Immense Summer Resort.

LOS ANGELES, July 13.—Catalina island, twenty miles off the coast, has been purchased by a syndicate for \$175,000. It is about twenty miles long and from three to five wide. Two-fifths of the stock in the syndicate is held in Los Angeles. The island will be made an immense summer resort, and additional steamers will be bought to ply between it and San Pedro.

In political circles speculation is still rife as to the successor of Secretary Lamar in the Cabinet, in the event the latter receives an appointment to the United States Supreme Bench. Senator Ransom's very emphatic declaration that he would not exchange his seat in the Senate for a place in the Cabinet seems to have been accepted in good faith by the political prognosticators. In connection with the suggestion that Senator Colquitt would succeed Secretary Lamar, one of the reasons assigned in favor of the appointment was that it would enable Governor Gordon, of Georgia, to return to the United States Senate. Secretary Lamar and Governor Gordon are old friends, and it was said that the Secretary is anxious to have Gordon return to public life in Washington.

New Orleans Picayune: There were no flags captured in California. General Drum went to that State in 1861 and remained until 1865.

LET DOWN EASILY.

The Officials of the Fidelity National Bank Not to be Prosecuted.

CINCINNATI, July 12.—Somewhat unexpectedly the final decree was entered by order of Judge Sage this afternoon against the Fidelity National Bank and its Directors and officers, to forfeit the charter of the Bank. Demurrers had been filed by President Briggs, Swift and others, and there was an appearance of a lengthy legal argument. Upon a mutual understanding the argument was dropped and the decree was agreed upon by all the parties, which dismisses the action against the Directors and other officers, but finds that the bank has violated the banking laws of the United States by lending money to D. A. Fitzpatrick and others upon the security of its own capital stock, and by permitting its cash on hand to fall below the required 25 per cent. of its circulation and deposits, and by incurring new obligations while in this insolvent condition. The charter of the bank is therefore declared forfeited. This action puts all the assets of the late bank in the hands of receiver Armstrong, and dissolves all attachments upon its property made since the bank was seized by the Government.

THE RESERVATION.

The Walker Lake Bulletin correctly remarks:

The absurdity of retaining the Walker River Reservation is growing daily more apparent to those who live in this country, but nothing has yet been done to open even a portion. The Indians do not use the place; they prefer hanging around the towns of the whites. Were the lake thrown open they would still have as many privileges as they now have, and under the stimulus of the white men's example would probably do much more fishing than at present. In no possible way would there be any wrong done to the tribe by the abandonment of the territory which is now held practically for nobody.

The Toledo Blade publishes replies from 21,390 Republican voters from every State and Territory in the Union, save Utah and Alaska, giving their preference for the next Republican candidate for President and Vice President. The names mentioned in the replies are Blaine, Sherman, Lincoln, Allison, Edmunds, Ingersoll, Harrison, Ingalls, General Sherman, Evans, Hawley, Depew and Foraker.

Wednesday's editorial column of The World contains the following: "President Cleveland does a fair share of traveling for a man holding his responsible position, but he does too much of it in the State of New York. He should extend his geographical knowledge, and make the acquaintance of the good people who reside in the South and West."

Blaine has gone to Scotland on a visit to Andrew Carnegie at Kidgston House, Perthshire, which beautiful place has been rented by Mr. Carnegie till October from Mr. Grant. He will return to Edinburgh in a few days where he will only make a short stop.

The Constitution of Costa Rica is quite a domestic affair. It prescribes hospitality as a sacred duty, and declares citizenship to be forfeited by ingratitude to parents.

The net gold in the Treasury has increased nearly \$30,000,000 during the fiscal year. We don't hear so much lately about the coinage of silver driving gold out of the country.

There are 65,006 widows in the State of Massachusetts. The widowers are much less numerous, and have an opportunity for favorable selections.

Montana is beginning to absorb some of the surplus of Eastern capital. Over \$20,000,000 will go out there this year for investment in railroads.

The South is drawing largely from Northern capital. It is said over \$160,000,000 of capital has gone South within the past year.

California is being gridironed with new railroads.

Oakland proposes to own its own electric light.

The customs of the East might be studied by those who are obliged to work in the sun in warm weather. In the East a long roll of turban wound around the head protects the brain, and a long coat wound about the middle of the body acts as a safeguard against internal complaints which come from great heat.

A Dubuque grocer named Scott offered to let a woman named Taylor strike him with a codfish for twenty-five cents. It was all a joke, you know, but she paid the money, gave the codfish a whirl or two, and when it hit grocer Scott it broke his jaw and tore off part of his ear.

What could the woman have meant who, when the doctor told her that her husband was dying, and that she had better send for a minister, asked: "Will one be enough, doctor, or would you advise a consultation?"

J. S. Tolles on Monday brought to the Stockman office two stands of wheat grown on his ranch, about eight miles from Reno, on land on which no water had been placed except that which had been contributed by the clouds. The stands are about two feet and a half in height, well-headed, and the kernels are well-developed. He planted about a quarter of an acre as an experiment, and so well pleased is he with his success that he will next season plant eighty acres to this staff of life. The soil is of a clayey loam, such as is commonly known as adobe, and what has been accomplished on Mr. Tolles' so-called barren land can be accomplished by other farmers, as there are thousands of acres of land in this valley, to which water at present can not be ditched, which partake of the same characteristics.

CALEDONIAN CLUB PICNIC.—The 12th annual picnic of the Virginia City Caledonian club will be held at Bower's Mansion on Saturday, August 6. As usual, they offer a fine and interesting programme, with magnificent prizes.

IN MEMORIAM.—The Eureka Sentinel says:

Martin Tregalis, one of the victims of the Gould & Curry mine at Virginia City, on Friday, June 24, was well known in this community. He was born at St. Agnes, Cornwall, England, and was about 35 years of age. He came to America in 1873, accompanied by Wm. Kito, a young man who now works in the Eureka Con. mine on Ruby Hill, and first found employment in the State of Michigan, where he remained but a short time, removing to this State, and going to work as a mine carpenter on the Comstock in the Fall of 1873. In 1876 he came to Eureka, and found ready employment at his trade, at the Eureka Con. mine, where he worked until February, 1885, when he was appointed as Captain of the Guard at the Nevada State Prison under Warden Bell. He remained in that position until last February, 1885, when he went to work again on the Comstock. Mr. Tregalis had a large number of friends among all classes of people on Ruby Hill, and also in Eureka, who regret his untimely death. He was an honest, sober and industrious man, and well liked by his comrades and friends. He was a Free Mason in good standing. His only relative here is Thomas Dale, who is in business on Main street. His father, who has a large clothing and outfitting establishment at Plymouth, England, often wrote to him to come home and take charge of that business, but Martin was ambitious to become the architect of his own fortune, and preferred to remain in this country until his desires in that direction were satisfied. He was an only son, and leaves his father and two married sisters in England to mourn his sad and untimely fate. May the green sod rest lightly on his grave.

THE NEW FORAGE PLANT.—The Stockman observes:

Alfalfa is substantially the feeding plant of Nevada to-day, but there are others that attract our attention, and will, when thoroughly introduced, cause Nevada to be one of the richest stock-raising States in the Union. These thoughts are suggested by considering the value and importance of alfalfa, the somewhat new fodder plant of Nevada. Although well known in California, it is comparatively unknown here, having made its appearance in this section within the past few years. Its seeds have little spiral filaments attached and when blown about by the wind catch readily in the soil and grow quickly. No known forage plant fattens stock as rapidly as alfalfa. It grows in dry, sandy places where water never comes, and the rapidity with which it spreads is something wonderful.

Let the dry lands of this State be seeded with alfalfa, and it will be worth millions to our stock industry. It is not probable that many people will act upon this advice, but the sturdy and enterprising plant is working its own way into the country and soon will teach the people what they ought to have known years ago. The plant has settled here to stay.

THE NEXT.—The "Jersey Lilly" will be the next attraction at the Nevada Theater.

In the engagement of Mrs. Langtry Manager Piper has shown his usual enterprise. She will appear here on Thursday, July 21st, with her own full company, and will appear in Gilbert's three-act comedy, entitled "Pygmalion and Galatea." The play is founded on a story of Pygmalion, a stately of Cyprus, who hated women and resolved never to marry but fell in love with his own marble statue of the Goddess Venus. At his earnest prayer the statue was vivified, and he married it. Jennyus, in his "Art of Dancing," says:

"Few, like Pygmalion, dote on lifeless charms, or care to clasp a statue in their arms."

Seats are already being rapidly taken, and a packed house is insured.

DISTRICT AGRICULTURAL SOCIETY.—The Silver State says:

The Directors of the Humboldt District Agricultural society are making arrangements to have a fair and horse races here in the Fall. If the people of the county take an interest in the matter they can get up a very creditable exhibition. Humboldt produces fine cereals, vegetables and fruits; fast horses, superior bullocks, mohair and wool, gold, silver, copper, nickel, antimony, lead, sulphur and salt, samples of all of which should be exhibited, as well as specimens of handicraft of the ladies and artisans.

SLICK WORK.—The Carson Appeal says:

Jack Plant, of the Virginia Chronicle, was the first newspaper man who knew of the rescue drift connection with the Belcher crosscut. He slid down the mine disguised as a miner, and by doing little odd jobs about the station passed unnoticed until the connection was made. Then he slid on top and got the news below inside of 20 minutes. He was the first newspaper man who ever got below without a permit.

ADVICE TO MOTHERS.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. feb. 21-st f-1v

CARSON'S STEAM LAUNDRY.—The Carson Appeal says:

There is a scheme on foot to sell the Steam Laundry to the State. The idea is to transfer the machinery to the State Prison where an inexhaustible supply of warm water is always ready and let the prisoners wash for the Insane Asylum, Orphan's Home, State Capital, etc. The stockholders all favor the idea.

The excessive use of perfumes, so long considered vulgar, has once more become fashionable.

Life is very cheap in Savannah. A man killed another in that city the other day for stepping on his dog's tail.

Astronomical lamp shades, which are new, have the moon and many of the stars painted thereon.

What Is It
That produces that beautifully soft complexion and leaves no trace of its application or injurious effects? Wisdom's Robotine accomplishes all this, and is pronounced by ladies of taste and refinement to be the most delightful toilet article ever produced. Warranted harmless and matchless. S. J. REMARKS AND CONDITIONS.

Nominations to stakes must be made to the Secretary on or before the first day of August, 1887. Entries for the purses must be made for Monday's races on the Saturday preceding, for Wednesday's races, on Monday, and for Friday's races, on Wednesday, at the regular time for closing entries as designated by the rules. Those who have nominated in stakes must name to the Secretary in writing which they will start the day before the race, at 6 P. M. Horses entered in purses can only be drawn by consent of the Judges.

The rules of the Pacific Blood Horse Association will govern running races. All horses entered for State purses must be owned and kept in Nevada and California, east of the Sierra Nevada, for six months prior to the day of the race.

Entries to all trotting races will close September 1st, with the Secretary. Five or more to enter and three or more to start in all races for purses.

National Trotting Association Rules to govern trotting races. Pacific Coast Blood Horse Association Rules to govern running races, except as above.

All trotting and pacing races are the best three in five, unless otherwise specified, five to enter and three to start. But the Board reserves the right to hold a less number than five to all, by the withdrawal of a proportionate amount of the purse. Entrance fee, ten per cent. on purse, to accompany nomination.

National Trotting Association Rules to govern trotting, but the Board reserves the right to trot heats of any two classes alternately, if necessary to finish any day's racing, or to trot a special class between heats. A horse making a walk-over shall be entitled only to the entrance money paid in. When less than the required number of starters appear they may contest for the entrance money, to be divided as follows: 60% to the first and 40% to the second.

In all the foregoing stakes the declarations are void unless accompanied by the money.

All entries must be made in the above stakes, declarations are permitted for a small forfeit.

In all races entries not declared out by 6 P. M. of the day preceding the race shall be required to be made.

Where there is more than one entry by one person, or in one interest, the particular horse they are to start must be named by 6 P. M. of the day preceding the race. No added money paid for a walk over.

Racing colors to be named in entries. In trotting races drivers will be required to wear caps of distinct colors, which must be named in their entries.

Each day's races will commence promptly at one o'clock P. M.

All entries must be directly to C. H. Stoddard, Secretary of the Society.

EQUESTRIANISM. Ladies' Grand Tournament for the most accomplished and graceful lady rider, to be held on Sept. 23, Wednesday, Sept. 25 and Friday, Sept. 30, at 10 o'clock A. M.

The Society offers four premiums, valued respectively at \$100, \$70, \$40 and \$20. The lady who is adjudged first shall have her choice of all premiums offered. The second lady shall have second choice, and so on.

It is expected that other special premiums will be added to this list by private contribution. No one but ladies of the highest respectability will be allowed to compete for prizes.

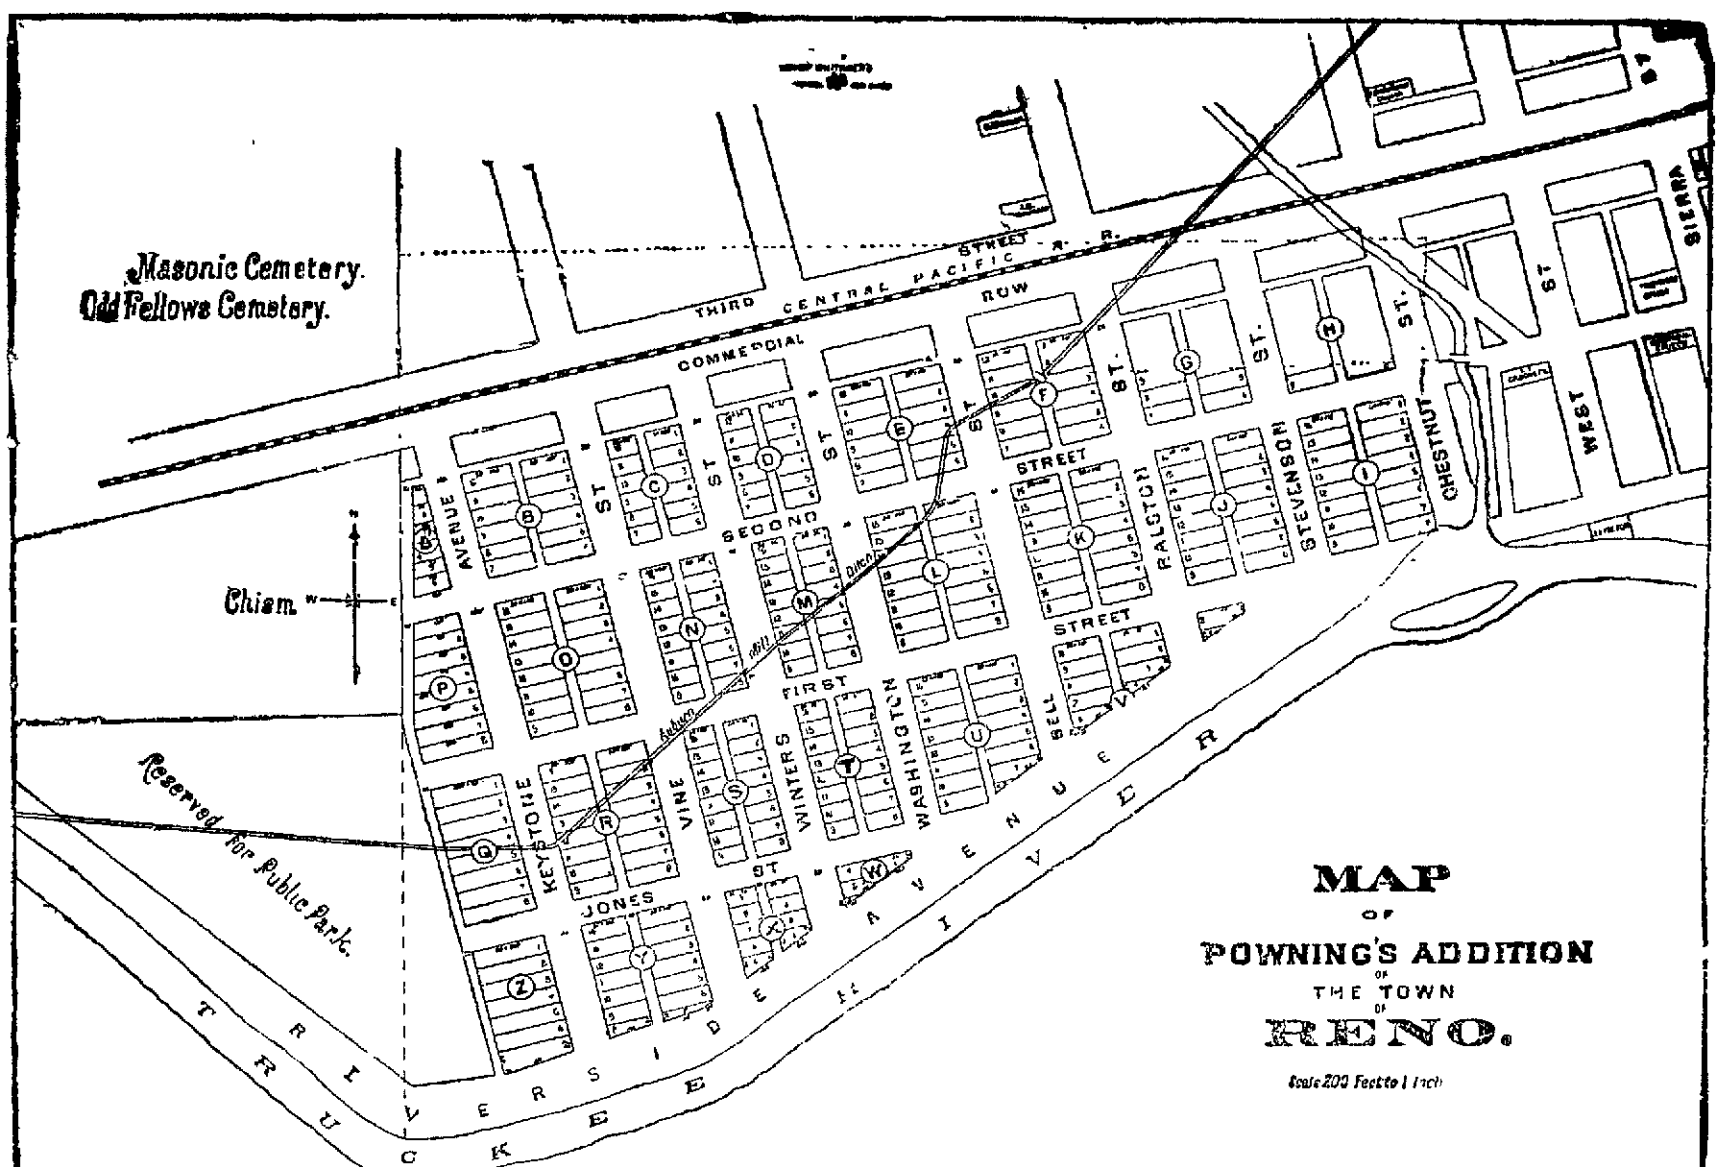

Ladies wishing to compete for prizes will please send names to Secretary, endorsed by two members of the Society.

INDIAN PONY RACES. On Thursday, Sept. 22d, Monday, Sept. 26th and Thursday, Sept. 30th the novelty of an Indian pony race will be provided, and the winning eight of twenty or thirty noble red men of the forest, mounted on the wildest and most unmanageable cayuses imaginable, galloping around the track at break neck speed, will, as they say at the circus, be alone worth the price of admission.

CLYDESDALE MEDALS. The American Clydesdale Association will give a valuable medal, of suitable design, for the best recorded Clydesdale stallion, and a similar medal for the best recorded Clydesdale mare bred in Nevada, and exhibited at the State Fair of 1887.

BALLOON ASCENSIONS. Arrangements have been made for a series of balloon ascensions during the Fair, alike novel and exciting. Ascensions will be made daily from the race track.

BICYCLE RACES. Two or three bicycle races will take place between the fastest wheelmen in the State, and two contestants are counted upon.

THE MOST LOVELY PORTION OF RENO.

Facing the Truckee—The Aristocratic Riverside Avenue Driveway—Splendid Sewerage—Healthy Location and Safe From Fire.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the Tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is it is more safe from fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.

PARKER'S MAP OF NEVADA.

PARKER'S NEW MAP OF NEVADA.

—THIS NEW AND BEAUTIFUL—

MAP OF THE STATE,

Has Just Been Published, and is Now Ready for Sale.

It has been completed with great care in order to make it being strictly correct, and furnishes a vast fund of valuable information regarding the topography of the State. There never has been a Map of the State prepared heretofore worthy of the name, and it is intended to fill a long-felt want on the part of citizens. It has been lithographed at large expense by the famous publishing house of Rand, McNally & Co., of Chicago, and does great credit to their well-known skill in the art. The Map is drawn on a scale of 12 miles to the inch, and shows all surveyed Townships up to date of issue, also all Mountain Ranges, Valleys, Rivers, Creeks, Brooks, Streams and Lakes; it also shows the correct position of all Indian and Military Reservations, and all Cities, Towns and Settlements; also all Railroads and the principal Wagon Roads. The County Boundaries are also depicted with absolute correctness, which is something that no other Map has even approximated to.

The Map is printed on the best of paper, and mounted with stick, top and bottom, with tape on edges and varnished; it is also printed on thin, strong paper, which folds up in stout covers for pocket form. The Counties are printed with different colors, making it altogether an ornament to any school house, office, saloon or private room, as well as valuable for instruction and reference.

The Map has been compiled by John W. Parker, the Chief Draughtsman of the United States Surveyor-General's Office at Reno, who holds the copyright, and is the condensation of all information on file in that office, as well as the celebrated War Department Maps prepared by Lieutenant Wheeler; he has also had at his command other recent and reliable data on which to rely, and the Map is issued to the public in the firm belief that it is in every way authentic.

The Price of the Map is \$5.00,

And copies will be sent to any address, postpaid, upon receipt of the money. Parties ordering will be careful to state which style is desired—mounted or pocket form.
